INCREASE IS LARGE. IS NOT ASTONISHED.

Quite a Number of New Cases Reported at Laredo,

NO ALARM IS FELT.

Drs. Gutierrez and Tabor Are Both of the Opinion That This State of Affairs Is No More Than Expected.

Laredo, Tex., Oct. 6.—While Monday has shown a very large increase of yellow fever cases, both Drs. Gutierrez and Tabor concur in the opinion that there is no cause for alarm, the doctors concurring in the opinion that the increase is nothing more than they expected at this time, this being the fourth infection, or in other words the cases being the result of bites from mosquitoes which had bitten persons infected with the yellow fever, probably before the arrival of the experts. As all the patients infected with the disease are now being protected from the mosquitoes by netting it is very probable that when those now down with the disease have reached the stage of convalescence the stamping out of the disease will practically have been accomplished.

Monday's official bulletin shows there have been twenty-two new cases, with no deaths. This makes the total number of cases to date eighty-three, while the total deaths have been five. The low mortality rate thus indicated is due to a better understanding of the disease, physicians having advanced much of late years in the disease.

No new cases or any deaths have been reported from Minera, a mining town twenty-eight miles up river and it is thought the disease will not gain a foothold there.

Conditions in Nuevo Laredo are greatly improved. A telephone message from that city states there was but one new case Monday.

Dr. Tabor and Superintendent Clark have returned from San Diego, where they met Judge Hopkins of Nueces, Judge Woods of Duval and Adjutant General Hulien. The conference held was very pleasant and all differences were adjusted, so that traffic will be resumed on the Trans-Mexican road at once so far as through freight from Alice is concerned.

The authorities have decided that those who fled from fear of the fever will not be allowed to return to this city until all danger has passed, as it is said the return of the non-immunes would only add fuel to the flames.

One more case of fever has appeared at Monterey, the case being that of a woman servant. The case has been isolated and measures taken to prevent any spread of the disease.

Commercial business in Monterey has been greatly crippled since the beginning of the yellow fever, although merchants say that under the circumstances they are doing much more than they expected.

FORCIBLE COLLECTION.

Emissaries of President Castro Have Arrived at Ciudad Bolivar.

Port of Spain, Oct. 6.—Emissaries of President Castro of Venezuela have arrived at Ciudad Bolivar, Venezuela, with orders to collect forcibly not only the taxes but the custom house duties already paid by importers from May, 1902, to August, 1903, the period during which the revolutionists occupied that city as government de facto. The amount demanded is about \$1,000,000. The foreigners, especially the firms of Blohm & Co., German; Palazzi & Co., French; Boccardo & Co., Italian, and Dalton & Co., American, have refused to pay, claiming that the duties had already been legally paid. Menaces and vexatious tactics are employed against the foreigners. Herr Sprick, a German, refused to pay back duties and a cargo of rum, belonging to him, which was being unloaded from a steamer, was seized by the government and sold at public auction for almost nothing. The German merchant in this manner lost \$25,000. Venezuelan merchants who refuse to pay, having no protection are imprisoned.

A reign of terror exists everywhere at Ciudad Bolivar and consequently trade is paralyzed.

President Castro's representative at Ciudad Bolivar was quoted as saying: "Germany and other foreign powers obliged the Venezuelan government to pay millions. Now, it is Venezuela who forces the foreigners to reimburse Venezuela."

Reticent as the Duke.

London, Oct. 6.—In reply to an inquiry as to the truth of the report of a delay in settling the cabinet crisis due to the indecision of the Duke of Devonshire, lord president of the council, whom it is alleged, sent his conditional resignation to Premier Balfour, the duke telegraphed: "I have no communication to make." This is accepted in Liberal circles as tending to confirm the report. Official circles, however, are equally as reticent as the duke.

American League Won.

Chicago, Oct. 6.—American League team won the second game of the series, a ten inning contest, by pounding Wickner for 14 hits and playing a perfect game in the field. The score: Americans, 4; Nationals, 4.

Berlin Department of Police Refers to Attacks on Rulers.

PRESIDENT'S DANGER

Members Surprised Head of, This Government Has Not Had More Risks, Imperial Family Being Much Menaced.

Berlin, Oct. 6.—Department of police noted without astonishment the several instances recently of the danger to the life of President Roosevelt, only wondering why they have been so few and so evidently with intelligent direction.

Inquiries show arrests of persons suspected of designs against members of the imperial family average one daily. Arrests are daily reported in newspapers and then only against the wishes of the police, for the latter believe that the mere mention of such arrests prompts ill regulated minds to plan for killing the sovereign. Quite fifty definite clues to such plots have been investigated during the last nine months, largely upon anonymous declarations. Members of the imperial family, however, are so hedged in by police precautions that it is difficult for a mentally diseased person to get near them.

CHAMBERLAIN OFF.

Former Colonial Secretary Begins Fiscal Campaign at Glasgow.

Birmingham, Eng., Oct. 6.—Joseph Chamberlain set out from here Tuesday morning on his fiscal campaign, amid every demonstration of good will from his fellow townsmen. Hundreds gathered at the railroad station and alternately sang "For He's a Jolly Good Fellow" and shouted "Good old Joey," and "the country's with you." Many vain appeals were made for a speech, but the only expressed opinion that could be extracted from the former colonial secretary was in reply to congratulations on the appointment of his son, Austen, as chancellor of the exchequer. Mr. Chamberlain admitted there were difficulties before the party, but thought it would "get through with them all right." Mrs. Chamberlain accompanied her husband on his speech making tour, which begins at Glasgow.

IMMUNITY FOR OLA.

Insurgent Chief Promises to Help Capture Two Other Leaders.

Manila, Oct. 6.—General Ola, leader of the insurgent armies in the province of Albay, Luzon, continues to turn over the guns of his command to American authorities. During the campaign 100 insurgents were killed and 700 men and 100 guns captured. At the time of the surrender Ola's men were in rags, hungry and covered with sores. He promised to help the authorities to capture Toleno and Larra, insurgent leaders still at large. General Allen says he has promised to grant immunity to Ola.

BOUND FOR BORNEO.

Took Six Thousand Dollars and Departed on a Schooner.

Manila, Oct. 6.—George Forman, chief inspector, and C. J. Johnson, constabulary supply officer, both stationed at Missamis, Mindanae, whose accounts are under investigation, seized \$6000 from the safe, seized a steamer and started for Borneo. Running short of coal, they stopped a native vessel and took from her a new supply. A steamer has been sent to Borneo to interrupt the fugitives.

RICHARDSON BACK.

Says He Resigned Presidency of Postal Development Company.

San Francisco, Oct. 6.—Superintendent Daniel S. Richardson re-appeared at his office in the postoffice after an absence of some weeks in Washington, where he was summoned before the federal grand jury in investigation of dealings of Postal Device and Development company, which resulted in the indictment of Postal Inspector James W. Erwl, August W. Machen and George W. Beavers for conspiring to defraud the United States. Richardson said he was no longer president of the Development company, having resigned in favor of Edwin F. Joy, vice president, after inspectors came here from Washington, for the reason he "had other duties" and could not give it proper attention.

POISONOUS PUNCH.

It Was Made of Wood Alcohol and Three Imbibers Are Corpses.

Philadelphia, Oct. 6.—Frank and Thomas Helms, brothers, aged forty-three and twenty-four years respectively, and William Conn, aged forty-one years, died from the effects of wood alcohol. According to the police the three men had been drinking heavily since Saturday. They procured a quantity of wood alcohol from a drug store and with lemons and sugar made a punch extract. Of this they imbibed freely Saturday, Sunday and Monday. They were taken violently ill early Tuesday morning.

A GOOD JUDGE.

You can't find a better judge of something good to eat than a hearty, lively, growing boy. That wonderful appetite of his craves wholesome, healthful food, and lots of it. He knows what is good. Once he tastes Monarch goods he takes a firm stand for it ever afterward, yes, even after he has arrived at man's estate. Why shouldn't he? Monarch goods are the most appetizing and nutritious articles of food produced. Our American Beauty flour is something we are proud of—made strictly from selected wheat, and guaranteed to give perfect satisfaction. Give our goods a trial for October, and see the difference in your table fare.

[[BRYAN.] TEXAS, OCT. 6, 1903

District Judge, Gillaspie of Houston charged the grand jury strongly concerning lottery agencies, polsey shops, pool rooms and gambling houses.

Tobacco is one crop that can stand dry weather and be the better by it. This is an additional commendation to it for this section as it can also stand a good deal of moisture, and will hit all right most any old season.

Dowie will descend upon Wall Street with a whole regiment of his so-called religionists, and a number of barrels in which to take up collections. He will modernize and popularize religious work, and "carry the day" with a whoop and a yell.

The hunting of presidents by cranks with guns on them, tends directly to support the growing popularity of militarism in this country. It may be the excuse some day for a camp by some ambitions, over strenuous president, who will only want an excuse to assume dictatorial powers.

A national democratic victory is demanded by present conditions that cry aloud for remedy. With less than one per cent. of the people owning more than 50 per cent. of the wealth of the country, and "the tariff, the mother of trusts," still supported by the Rough riders of the Republican party, things cannot go on as they are doing now much longer.

RESOLUTIONS OF RESPECT.

Whereas, the great Ruler of the Universe has, in his infinite wisdom removed from our midst our esteemed friend and fellow musician, David Steubenrach; and Whereas, the intimate relation held during life by him with the members of this band makes it fitting that we record our appreciation of him; therefore,

Be it resolved, that the wisdom and ability which he has exercised in aid of our band work—by attendance, advice and council, will be held in grateful remembrance.

Resolved, that with deep sympathy with the afflicted relatives and friends of the deceased, we express our earnest hope that even so great a bereavement may be overruled for their highest good;

Resolved, that a copy of these resolutions be spread upon a page of our minutes, that a copy be sent to the bereaved family, to our daily paper for publication, and that we drape the Band room for thirty days.

Wayne MacVeagh Declares Venezuelan Arbitration Tribunal.
The Hague, Oct. 5.—Wayne MacVeagh, senior counsel for Venezuela continuing his argument before the Venezuelan arbitration tribunal, declared the question before the tribunal was one of ethics, namely, whether or not the war against Venezuela was just and necessary. He maintained that the complaints of Great Britain were merely a pretext for war and that Venezuela had far greater right on her side when she complain-

Wayne MacVeagh
ed of the dispatch of a British vessel from London to the Caribbean sea to deliver the cargo of arms to the insurgent chief, Gen. Matos, though the intermediary of agents at Trinidad. Counsel said he found no precedent in history for such a purely financial war as he declared was undertaken by Great Britain and Germany for the protection of railroad companies, bondholders and in support of the claims of the Disconto Gesellschaft. Mr. MacVeagh recalled that Great Britain accepted arbitration in the Alabama case when a British vessel assisted the Venezuelan insurgents, entered a protest. Instead of arbitrating this matter Great Britain and her allies sent a twenty-four-hour ultimatum to Venezuela demanding the immediate payment of \$380,000.

MENSTRUAL irregularities are generally the beginning of a woman's troubles. With the vitality at a low ebb, the blood weakened, the digestion disordered, she goes about pale-faced, hollow-eyed and haggard, a piteous contrast to the blooming health of her former self. But over 1,000,000 women have found health again by taking Wine of Cardui. As a regulator of the menstrual periods Wine of Cardui has never been known to fail. It has seldom failed to restore perfect health, even in the most persistent and aggravated case of weakness.

to their health we would have more happy wives, mothers and daughters, and if they would use more intelligence in the matter of medicine, observing results, they would find that the doctors' prescriptions do not perform the many cures they are given credit for.

WINE of CARDUI A million suffering women have found relief in Wine of Cardui.
